### **HOOK POINTS**

### **Hand Ground**

BKK Hand Ground technology enables the hook to reach unprecedented levels of penetration and lightness. This process leaves the original needle point unaltered as the grinding begins a few millimeters above the point.

- · Hand ground sides form a sword blade for reduced piercing resistance.
- · Lighter hook structure by grinding areas with minimal stress.
- · Reinforced in critical areas to prevent bending out.

### **Cutting Delta**

The design concepts of the Cutting Delta point originate from the formation of a military sword.

- Razor sharp tip with leading edges designed to reduce surface contact area.
- Cold forging enhances the penetration performance while strengthening the structure.

### **Cutting Blade**

The patented design concept of the Cutting Blade was derived from the sharp teeth of a shark.

- Penetrate hard jawbone with ease by piercing through and sliding between the bony parts of a fish's mouth.
- Excels in long-range fishing techniques for bottom dwelling fish with bony mouths.

### **Combat Point**

The design of the CP hook point resembles that of an inverted T, greatly increasing the penetration performance.

- · Utilizing three edges helps aide in piercing through the hardest mouths.
- The central edge reinforces the structure and aids in its overall strength.
- Designed for long-lasting performance even after dealing with rocky bottom.

### **COATINGS**

The BKK OCD Tackle System is the ultimate companion for keeping your terminal tackle organized and ready to go. The BKK OCD Tackle System ensures everything stays neat and easily accessible whenever you open your tackle tray. Crafted with durable polypropylene, and featuring a soft gasket and strong latches, it keeps your gear secure, watertight, and protected from moisture. Support up to 80 small boxes, 44 medium boxes or any combination of sizes in between.

### OCD TACKLE SYSTEM (STARTER KIT)

The BKK OCD Tackle System (Optimized Containment Device) "Starter Kit" is the perfect option for those Angler's that want a head start on building out thier Ultimate Tackle Storage Solution. This "Starter Kit" consists of an OCD Storage Box, 20 Medium Accessory Boxes, 8 Small Accessory Boxes, and 1 Large Accessory Box. The OCD Tackle System is the ultimate companion for keeping your terminal tackle organized and ready to go. The BKK OCD Tackle System ensures everything stays neat and easily accessible whenever you open your tackle tray. Crafted with durable polypropylene and featuring a soft gasket and strong latches, it keeps your gear secure, watertight, and protected from moisture. The BKK OCD Tackle System is your ultimate companion for storage of ARMORPOINT hook and accessory boxes.

### **OCD ACCESSORY BOX**

Designed by anglers for anglers, this accessory box is the ideal choice for the most meticulous and dedicated anglers, combining practicality with superior organization. Effortlessly label the box to identify hooks and sizes, making selection fast and easy. It's water-repellent and reusable construction ensures durability, while its seamless integration into the BKK OCD Tackle System offers a streamlined and efficient storage experience.

China Patent Application No. 20243034126

### PERMALOCK

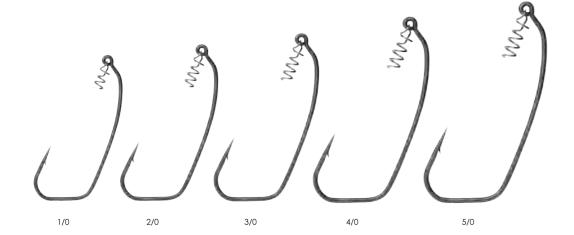

The BKK PERMALOCK is developed for finesse presentations and for rigging thinner profile plastics like Senkos and flukes. This hook is equipped with a Super Slide (SS) finish and an extra-sharp needle point to ensure excellent penetration performance, heightening the overall hook-up rate. Made with Hyper Carbon Steel (HCS), the wire is stronger than other traditional High Carbon Steel wires.

A-EW-8406	5/0	4	

The BKK WEIGHTED PERMALOCK is developed for finesse presentations and for rigging thinner profile plastics like Senkos and flukes. The innovative INVISI-WEIGHT system gives the bait a stealthy and natural glide toward the strike zone and allows for a horizontal presentation in the water column, ideal for FFS fishing near structures. This hook is equipped with a Super Slide (SS) finish and an extra-sharp needle point to ensure excellent penetration performance, heightening the overall hook-up rate. Made with Hyper Carbon Steel (HCS), the wire is stronger than other traditional High Carbon Steel wires.

### PERMALOCK TUNSGSTEN NAIL KEEPER

The BKK PERMALOCK TG NAIL KEEPER is the secret weapon for enhancing your fishing game with Permalock hooks. Crafted to give your bait a stealthy and natural glide toward the strike zone, and to allow for a horizontal presentation in the water column, ideal for forward-facing sonar fishing near structures. Made from tungsten, these weights are more compact than their lead counterparts, making them much easier to use on smaller soft plastic baits. Each weight features a sharp point and a fluorocarbon bait keeper, which makes for easy insertion and prevents the weight from sliding out, even while casting.

 Ching Patent Application No. 2024303412578 2. China Patent Application No. 2024213040843

### **ELEVATE YOUR SOFT PLASTICS GAME**

- 1. The BKK PERMALOCK TG NAIL KEEPER is not visible to the fish allowing for stealthy presentations.
- 2. The BKK PERMALOCK TG NAIL KEEPER increases the weight of the bait without affecting the overall shape, adding increased castability to finesse baits.
- 3. The PERMALOCK TG NAIL KEEPER helps to stabilize soft jerkbaits, and allows for fast, sub-surface and deep water, "walk the dog" retrieves.
- 4. The placement of the PERMALOCK TG NAIL KEEPER gives the bait a natural glide towards the strike zone, and entice fish to strike on the fall.
- 5. The PERMALOCK TG NAIL KEEPER, located in the front of the bait, allows for horizontal presentations in the water column which is ideal for fishing near structures using Forward Facing Sonar.

### OFFSET WORM WG 💞

### (ARMOR POINT)

The BKK OFFSET WORM WG is developed with a wide gap for Texas rigging
senkos, shads, flukes, and creature-like soft baits. This hook is equipped with a
Super Slide (SS) finish and an extra-sharp needle point to ensure excellent
penetration performance, heightening the overall hook-up rate. Made with
Hyper Carbon Steel (HCS), the wire is stronger than other traditional High
Carbon Steel wires. The enhanced Z-bend makes for quick rigging and holds
the plastics on the hook longer, reducing bait damage.

The BKK HYPER LATCH 70-SS UL is a light-wire treble hook specifically engineered to keep Jerkbaits perfectly balanced and to allow for quicker and deeper hook penetration. Made with Hyper Carbon Steel (HCS), the wire is stronger than other traditional High Carbon Steel wires, providing the additional strength required to land big fish. The distinctive acute angle at the bottom of the hook dramatically improves the hook-to-landing ratio.

THE BKK HYPER LATCH 70-SS UL are designed and manufactured to match the weight of Megabass 110 factory hooks, while increasing strength by 30%. This is the best upgrade for all suspending jerkbaits and finesse hard baits.

\*For more information, refer to the product infographic at page 39.

### PREDATOR WG

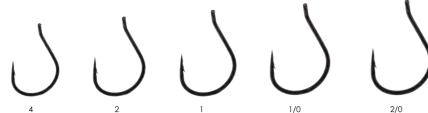

The BKK Predator WG is a freshwater finesse hook used for a variety of rigs such as Wacky and Dropshot, primarily for bass fishing. The wide-gap design and the Super Slide coating significantly enhance the hook-up rate, while the micro barb makes it suitable for catch and release. Despite its slim profile, the Predator WG is strong enough to fight big prey thanks to its forged shank.

### **TITANDIVER+**

The first member of the TITAN family was introduced just a few years ago and it soon became one of the most popular swimbait hooks for some of the biggest freshwater predator species. The fact it was bestowed the 2021 Good Design Award in Japan was a testament to the innovative features and design of the hook.

The more we used it, the more we thought about how to improve its set of features. In 2020 the TITANDIVER was born, stabilizing the swimming action and featuring a blade to enhance attractiveness.

In 2021 the latest generation of the TITAN series came to life: the TITANDIVER+, setting a whole new level for weedless lure fishing, from bass to bigger fresh and salt-water predators.

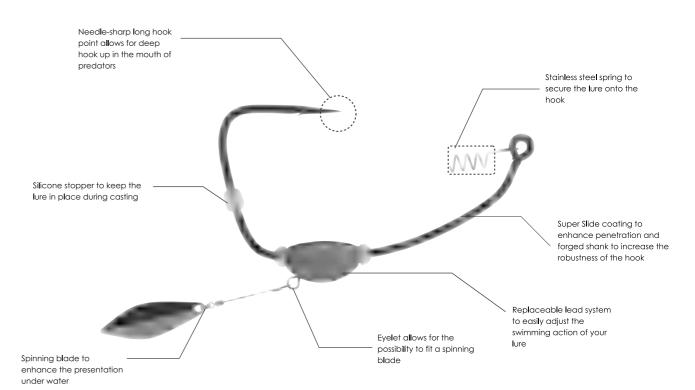

### **TITANDIVER+**

The BKK TITANDIVER+ is the ultimate evolution of the Titan series.

A breakthrough in the swimbait hook segments, the Diver+ inherits all the features of an ordinary TITANRIDER hook – Super Slide coating, needle point, spring and silicon stopper – enhanced with a simple, intuitive and effective lead – swapping system. The system offers many different combinations to add weight to your lure as the lead can slide on the shank, stimulating the creativity of anglers in adapting it to various fishing techniques and conditions.

The bottom eyelet on the weight allows for the addition of a blade to enhance the presentation of the lure.

### **TITANDIVER-GOLD**

The BKK TITANDIVER is a new and upgraded version of the TITANRIDER, designed for weedless-style rigging of soft plastics. It maintains all the features of the original TITANRIDER, including a locking spring to secure the bait, a silicone stopper to keep it in place, and the Super Slide coating. In addition, it features a fixed weight that aids in presenting the lure down into the strike zone. The weight itself is equipped with a stainless-steel ring, allowing for the optional attachment of a spinning blade. The blade adds a fish-attracting flash, enhancing the appeal of the presentation. The gold color blade has been added to the lineup for its excellent visibility in low light conditions and stained/muddy water. Silver is better suited for brighter conditions and clearer water.

### **TITANRIDER**

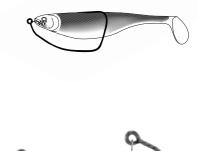

BKK TITANRIDER is designed for weedless-style rigging of small to large plastics like swimbaits, worms and tubes. A locking spring securely holds baits in place and allows angler to easily add or remove bait without damage.

The adjustable silicone stopper keeps soft plastics in place during casting whilst allowing for sliding down the hook when afish strikes.

The BKK Spear-21 UVO features BKK's Orange Ultra Violet (UV) paint that delivers high-contrast visibility, reflecting the UV light available in the water column. It is equipped with needle-sharp hook points that ensure quick and deep penetration.

### SPEAR EWG-71 SS

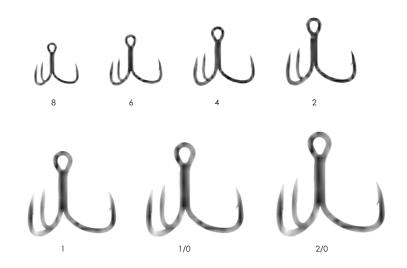

The SPEAR EWG-71 SS is a 1X-strength treble hook specially designed to be equipped on crankbaits of all types. The shorter shank enables this hook to sit closer to the body of your lure, minimizing the impact on its swimming action and the chances of snagging. The inward-looking points and the EWG (Extra Wide Gap) design reduces the chance of pulled hooks without affecting the hook-up rate. The SPEAR EWG-71 SS features BKK's signature SS coating that ensures smooth hook-ups and maintains the hooks' sharpness over time.

BKK.\_\_\_\_ (ARMOR POINT) SPRINGS ON SPRINGS

The BKK HYPER LATCH 70-SS UL is a light-wire treble hook specifically engineered to keep Jerkbaits perfectly balanced and to allow for quicker and deeper hook penetration. Made with Hyper Carbon Steel (HCS), the wire is stronger than other traditional High Carbon Steel wires, providing the additional strength required to land big fish. The distinctive acute angle at the bottom of the hook dramatically improves the hook-to-landing ratio.

### ULTRA ANTIRUST

The largest treble hook that concentrates the highest technology of BKK to serve the most extreme anglers.

We developed the GT-REX to challenge the biggest GT and Bluefin Tuna in the world on poppers and stickbaits. The design of GT-REX emphasizes superior hook-up ratio and excellent impaling power coped with strongest wires and super anti-rust feature. Processed through the most advanced heat treatment, GT-REX uses BKK-81W/V, the strongest material from BKK, to present its superior stretch power and resilience. The hook point of GT-REX adopts BKK's finest hook point processing technology to insure its ultimate impaling power. Meanwhille, sealed hook eye and advanced anti-rust technology equip this treble with a solid and long-lasting strucure.

ed section e elasticity to reduce

paduce being on the part of th

Our fully welded Micro Ring is formed once the hook shank has undergone a special grinding process. The strength of the ring is maintained while providing a slim profile that makes attaching a split ring super easy.

HG point - BKK's finest hook point processing technology insures the ultimate impaling power.

Perfectly curved hook bend maximizes strength and resilience.

GT-REX's super sharp hook point goes into the deepest part of fish's mouth and impales its hard bones as soon as the fish swallows the lure.

The combination of a curved hook point and wide hook gap minimizes chances of escape.

### **GT-REX**

The BKK GT-REX was developed to tackle massive giant trevally and tuna. The Hand Ground hook point of the GT-REX coupled with BKK's signature Ultra-Antirust Coating ensure sustained sharpness and penetration performance. All the details of GT-REX from the hook eye to the points have been engineered to create simply the best-performing treble hook for your saltwater popping.

### **BKK-RAPTOR-X**

SKU NO Size Qty PKG

A-ET-6762 6 9 A-ET-6763 5 8 A-ET-6764 4 8

The BKK-RAPTOR-X is a 3X-wire treble hook whose design is inspired by one of the best treble hooks BKK ever launched: the BKK-RAPTOR-Z.

The hook gap-shank proportions are maintained to equip the BKK-RAPTOR-X with excellent holding power, yet the hook point is slightly straightened to enhance the hook-up rate, further heightened by the slimmer profile of the wire and by the Hand-Ground processing technology.

Featuring a lighter wire and being available also in very small sizes, the BKK-RAPTOR-X can be suitable to arm smaller lures without affecting their swimming action. The lightness of the hook structure is increased also by the Hand-Ground processing, through which the hook is manually sharpened by removing material around the point.

The Bright-Tin coating of the BKK-RAPTOR-X aims at maximizing its performance in terms of saltwater corrosion resistance, being thereby suitable even for harsh saltwater environments.

### BKK-VIPER-61

SKU NO Size Qty PKG

A-ET-6801 5/0 5

A-ET-6802 6/0 5

A-ET-6803 7/0 4

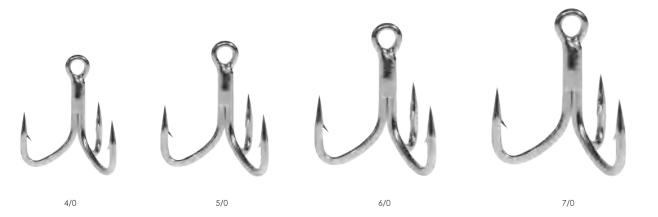

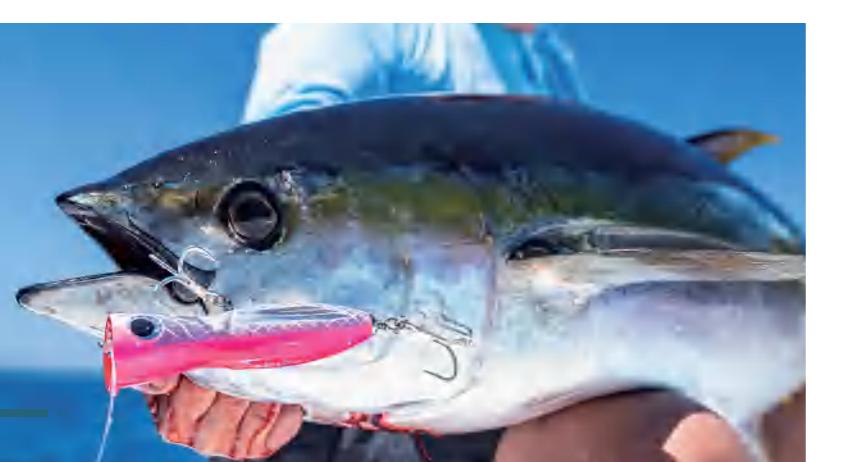

The BKK-Viper-61 is a super strong 6X-wire treble hook, extension of Japan's Good Design Award Winning Treble: BKK-Viper-41 (2023)

The design of the BKK-VIPER-61 stems from the experience made over the
years with fast swimming diving trolling lures and surface skipping lures all
around the world.

The straight point was chosen to maximize the hook-up rate when fish only hit the lure, while the aggressive shape of the bend and the oversize barb ensure that the hook does not come off during prolonged fights.

The ring of BKK-Viper-61 adopts BKK's Slim Ring process which provides a slim profile that makes attaching a split ring super easy. Meanwhile, the Bright Tin coating technology equips this treble with a solid and long-lasting protection that resist even harsh saltwater environments.

### **BKK-VIPER-41**

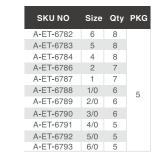

The BKK-Viper-41 is a strong and sharp 4x treble hook designed with long and straight needle points and a very aggressive bend.

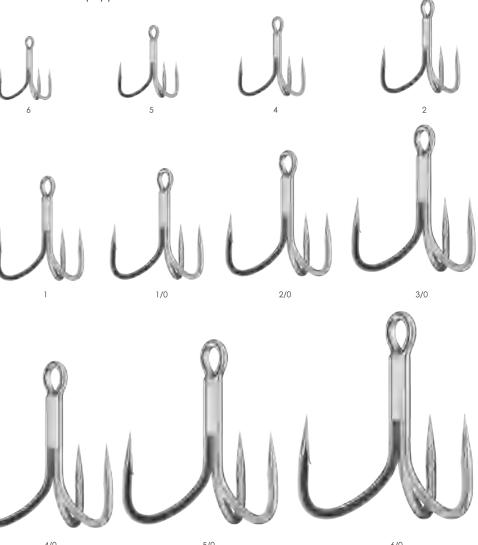

The design of the BKK-VIPER-41 stems from the experience made over the years with fast swimming diving trolling lures and surface skipping lures all around the world.

The straight point was chosen to maximize the hook-up rate when fish only hit the lure, while the aggressive shape of the bend ensures that the hook does not come off during prolonged fights or when the fish jumps out of the water.

To reduce the overall weight of the hook we shortened the welded section of the treble, thereby also providing more flexibility to the structure without affecting the overall strength.

The BKK-Viper-41 is coated in Bright Tin to resist even harsh saltwater environments and comes in a wide size range (6 to 6/0) to fit a huge array of lures, from small vibes to big SW stick baits and poppers.

### BKK-LONEDIABLO BUCKTAIL TEASER HOOK

The BKK-LONEDIABLO BUCKTAIL TEASER HOOK is the ideal choice for replacing the trebles on hard baits when targeting striper, tuna, and other king size saltwater game fish. Built on 5X saltwater grade BKK-LONEDIABLO hooks, these teasers combine the dynamic motion of genuine bucktail with the flash of holographic fibers proving to drive fish wild. The binding thread is covered in epoxy resin to improve durability, even after many strikes. These teasers are not limited to just topwater baits; they make a great addition to a variety of other rigs like jigs, shallow divers, and deep divers to attract more attention to your bait.

### **BKK-LONEDIABLO**

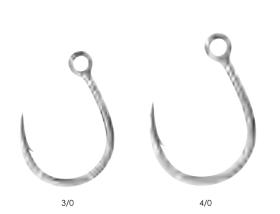

BKK-LONEDIABLO hooks have been developed to be used on lures like stickbaits and poppers. They embody all BKK's technologies and centennial experience. HG point ensures easy penetration, the unique design guarantees perfect hookset, and Bright Tin coating ensures enduring performance.

BKK developed a fabrication process for hooks carrying our Micro Ring label. Part of this process involves manual grinding before the material undergoes cold forging. The result is a strong slim ring profile that makes for easy attachment with split rings.

### 1. FORGED RING

The Forged Ring Technology results in a smaller section that makes fitting split rings easy and quick.

The Super Slide coating increases the hook penetration performance due to the extremely low coefficient of friction the PTFE coating provides.

### 3. HCS - HYPER CARBON STEEL

BKK's proprietary HCS (Hyper Carbon Steel) is 25% stronger and 30% harder than traditional high-carbon steels. This enables the structure to achieve unprecedented levels of performance.

### 4. HOOK DESIGN

The hook design is inspired by one of the best single hooks BKK ever launched: the LONEDIABLO. The profile has been designed to optimize the hookup rate while minimizing the chance of pulled hooks.

### **PLUGGING** SINGLE HD

The BKK Plugging Single HD is an assist hook developed to cater to heavy-duty saltwater lure fishing and can be a performing alternative to common treble hooks, when reduction of torsional forces is most needed.

In fact, the hollow-core assist cord provides more freedom of motion to the hook, resulting in a heightened hook up ratio and lower chance of the hook coming off. Besides, the single hook causes less damage to the fish, allowing for an easy and fast release.

### **PLUGGING DOUBLE HD**

The BKK Plugging Double HD is a double assist hook developed to cater to heavy-duty saltwater lure fishing and can be a viable alternative to common treble hooks when reduction of torsional forces is most needed. The hollow-core assist cord provides more freedom of motion to the hook, resulting in a heightened hook up ratio and a lower chance of the hook coming off. Suitable for rigging stick baits and poppers as well as a great assist for heavy jigging applications. The two hooks are tied individually to the ring allowing for two different presentations: hook points facing outwards for improved hook-up rate or facing inwards to reduce snags.

### **MONSTER CIRCLE**

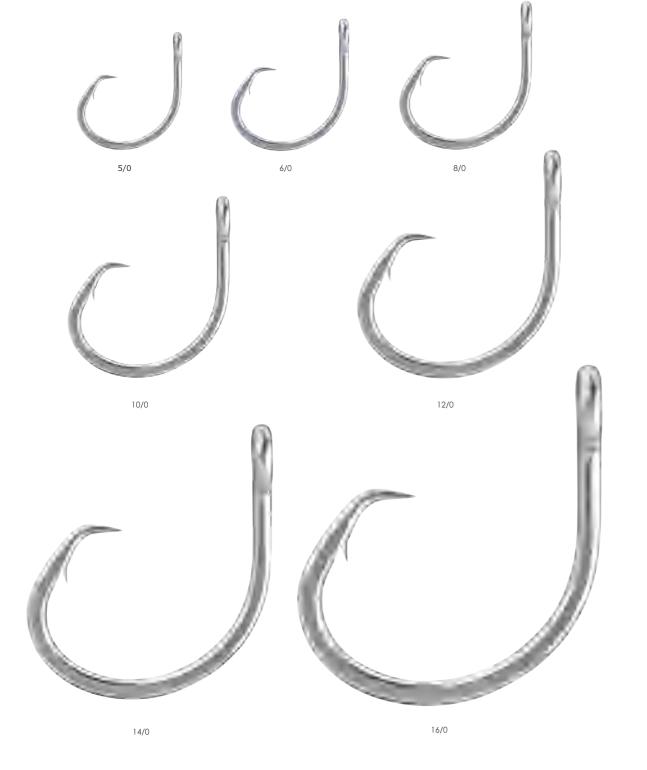

BKK's Monster Circle hooks are specifically developed to target the strongest saltwater species. It features BKK's Ultra-antirust coating that ensures a superb saltwater corrosion performance and a super durable and sticky-sharp needle hook point for excellent penetration performance. Additionally, the inline hook point design ensures a jaw corner hook up, being for this reason ideal for C&R. These hooks are simply a must-have when targeting extremely big fish.

### MONSTER CIRCLE **DRIFTING SPECIAL**

BKK Monster Circle Drifting Special is specifically developed for drift fishing tackling massive saltwater species. The hook is designed with a straight eye and an in-line hook point that make it very versatile, as it can be used to tackle various kind of blue water species such as tuna, king fish and sharks. When drifting, the stainless-steel ball bearing swivels with ultra-smooth dual rotation absorb all torsional forces and avoid tangles. BKK's signature Hand Ground hook point delivers superb impaling power and minimizes piercing resistance, increasing the hook up ratio. It is the go-to hook when targeting some of the world's largest fish.

### **OFFSET HEAVY CIRCLE-SS**

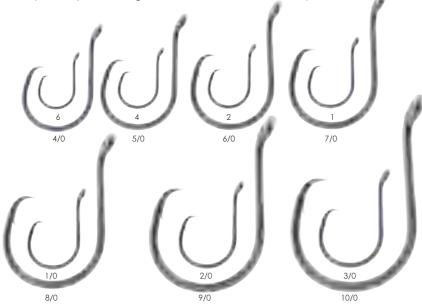

The BKK Offset Heavy Circle is an extremely versatile hook well suited for a wide variety of freshwater and saltwater fishing applications with both live baits and chunk baits. These Circle hooks feature BKK's Super Slide coating which reduces friction for

easy point penetration by simply coming tight to the fish when it takes the bait. The coating also helps ease the sliding of live baits onto the hook to help prolong their liveliness.

In addition to the circle hook design, the offset hook point further enhances the hook up rate by maximizing the chances of fish's self-hookups.

### **MUTSU CIRCLE HEAVY-SS**

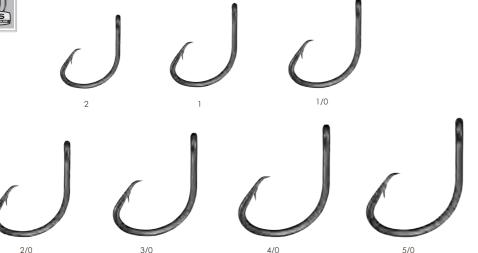

The BKK MUTSU CIRCLE HEAVY-SS is a stronger version of the MUTSU CIRCLE MEDIUM developed for heavier offshore applications with both live baits and chunk baits. It features a super sharp offset point, which, together with the SS coating, delivers faster hookups and easier bait rigging. In addition, thanks to BKK's proprietary HCS (Hyper Carbon Steel), the hook structure is strong enough to hold big fish like bluefin and yellowfin tuna.

### RINGED MUTSU CIRCLE **MEDIUM-SS**

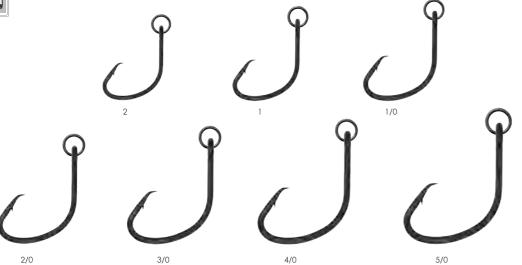

The BKK RINGED MUTSU CIRCLE MEDIUM-SS is an extremely versatile hook developed to suit a wide array of applications with live baits and chunk baits, both inshore and offshore. It features a super sharp offset point, which, together with the SS coating, delivers faster hookups and easier bait rigging. In addition, thanks to BKK's proprietary HCS (Hyper Carbon Steel), the hook structure is light enough to ensure livelier presentations of smaller baits, yet strong enough to hold big fish. The additional solid ring allows the bait fish to swim livelier and naturally enticing more bites.

### **ALLROUNDER-SS**

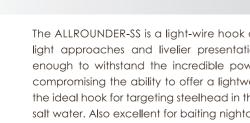

ALLROUNDER-<mark>SS</mark>

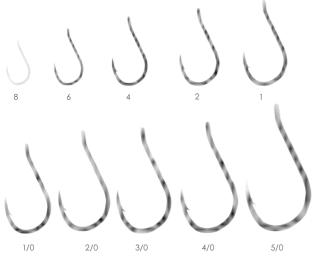

The ALLROUNDER-SS is a light-wire hook developed expressly for light approaches and livelier presentations of the bait. Strong enough to withstand the incredible power of each fish without compromising the ability to offer a lightweight presentation, this is the ideal hook for targeting steelhead in the streams and salmon in salt water. Also excellent for baiting nightcrawlers and minnows for walleye, bass, panfish and for rigging crabs, shrimp and blood worms when targeting inshore species like snook, seatrout and drum. An offset point and SS coating ensure superior hooking performance and holding power.

# **OCTOPUS BEAK** STRAIGHT EYE

BKK Octopus Beak is one of the most popular bait fishing hooks for both freshwater and saltwater fishing, featuring an offset hook point (reversed) that provides an enhanced hook-up rate. Its wide gap design allows for the use of bigger and bulkier baits. The black nickel finish helps to maintain the hook's sharpness and provides excellent saltwater resistance. Last but not least, the needle hook point provides excellent penetration performance. Now available with a straight-eye design for alternative rigging options.

Disregarding wind and current speed, the general rule of thumb for choosing the jig is 1g per 1 ft of water (100g in 100ft of water), For those who measure the weight of the lures in ounces, the easiest way is to divide the gram weight by 30 (150g is about 5oz).

#### JIG SELECTION

LOW FLUTTER JIGS: Bottom or center weighted with streamline torpedo profile. Designed to get to the bottom quickly with a lot of action on the retrieve (e.g. NOMAD STREAKER).

MEDIUM FLUTTER JIGS: Center balanced and medium profile with a slightly flat back. Designed to be worked at slower to medium speeds and dart around when twitched and jigged (e.g. NOMAD GYPSEA).

HIGH FLUTTER JIGS: Center balanced with a wide profile and a flat or spoon shaped side. Designed to wobble and flutter slowly through the water column during free fall enticing the fish to strike as the lure falls. (e.g. NOMAD BUFFALO).

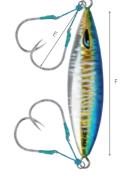

#### **ASSIST PAIRING**

<sup>·</sup> To prevent the hook from getting stuck on the jig, the hook gap (A) should be larger than the jig width (B).

#### SLOW JIGGING

Best configuration: The two assists can touch but do not overlap

 $\cdot$  For the best hook up rate, and to prevent the two assists from tangling, the length of the assist (E) should not excede 1/2 of the length of the jig (F).

<sup>•</sup> To maximize the hookup rate the assist length (C) should cover 1/3 to 1/2 of the jig length (D).

# **LIGHT SLOW FALL**

The BKK SF Gaff-R has been designed for slow jigging applications. The Delta Point technology and innovative design ensure easy hook ups, even during free fall and without main line tension.

The hooks are tied using the BKK Fluoro Core Assist Cord to minimize tangles and improve hook penetration.

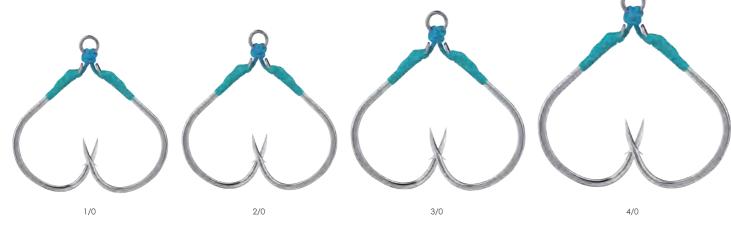

Thanks to the three lengths available, SF Gaff-R can be used with all kinds of jigs.

# **LENTUS**

### (HEAVY SLOW FALL)

BKK SF Lentus hooks have been developed to target deep-water monsters with the slow jigging technique. For this reason they have been designed with a heavy gauge that can stop the run of a big fish and an inturned point that reduces snags, but once set in the fish mouth won't come off during the fight.

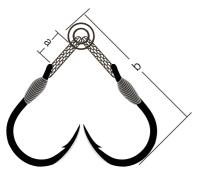

The hooks are tied using the BKK Fluoro Core Assist Cord to minimize tangles and improve hook penetration.

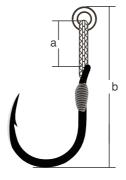

Thanks to the three lengths available, SF Lentus can be used with all kinds of jigs.

# SF REEFMASTER HG

The BKK SF Reefmaster HG assist hook is a versatile jigging hook developed for fast jigging applications. The assist hook comes pre-tied with high-quality natural hair and glowing binding thread that help triggering more strikes even when facing tough fishing conditions.

The assist cord used is soft and extremely strong at the same time. This hook features some of BKK's best technologies including the ultra-sharp Hand Ground hook point, a perfectly welded micro ring and a bright tin coating for excellent saltwater corrosion resistance.

# SF REEFMASTER NP

The concept underlying the development of BKK SF Reefmaster NP jigging assist hook is to provide anglers with a quality product equipped with a high cost-performance ratio. This assist hook comes pre-tied with a high-quality 16-braided-strand assist cord for optimum strength and flexibility.

The glow binding thread on the hook helps stimulating strikes even in low visibility conditions. The hook itself also features BKK's signature hook technologies including the micro ring technology and corrosion-resistant bright tin coating.

## SF REEFMASTER NP - LONG

SF REEFMASTER NP

The BKK SF REEFMASTER-NP LONG is the long assist version of BKK's standard SF Reefmaster-NP. It maintains all the features of the shorter model, including a razor-sharp needle point for improved penetration, a perfectly welded ring and forged bend for enhanced strength, slim shanks for weight reduction, and tin coating for excellent saltwater corrosion resistance. The longer assist cord makes it the perfect match for longer knife jigs when fish bite

# **REEFMASTER NP**

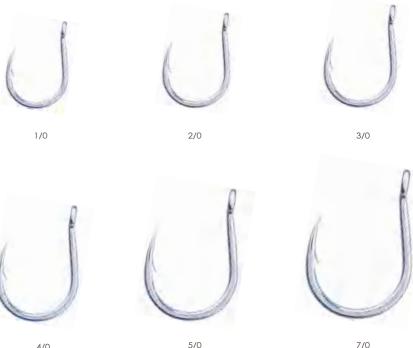

The BKK Reef Master NP is developed to be a high cost-performance ratio versatile jigging hook. A perfectly welded ring and BKK's accurate forging process enhance the overall strength of the hook structure, also reinforced by a bright tin coating providing excellent corrosion-resistant performance even in harsh saltwater environments. In order to ensure solid hook ups every time, this hook also features BKK's needle sharp hook point. Last but not least, the hook features BKK's Micro Ring technology that allows for an adequate hook eye diameter and reduces the overall weight of the hook, without affecting its structural strength.

#### DRAGGIN'NED

The BKK Draggin'Ned is designed specifically for Ned Rig presentations. Features include BKK's signature SS coating and a sharp needle point for enhanced penetration, and an O'Shaughnessy forged bend to maximize strength. We elaborated further on the concept of a classic Ned head by adding a series of details that make this jighead unique: a recessed eye to reduce snags and protect the knot when fishing over rocky bottoms, a baitkeeper designed to fit both elastomeric and standard soft bait compounds, and ribs on the underside of the head for increased sensitivity when dragging the bait on the bottom. The final touch is on the head, where size and weight specifications are embossed for easy selection. The Draggin'Ned comes in two colors: matte green pumpkin and matte black. It also comes in a weedless version featuring a nylon guard. Two sizes available (1 and 1/0), weight range 1/16 - 1/4oz. All these details and combinations make the Draggin'Ned the ultimate jig head for finesse standup approaches with 4-10lb lines.

## SILENT CHASER **GLIDE'N SHAKE**

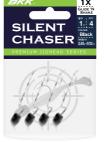

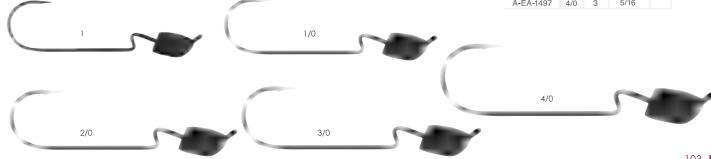

The BKK Glide'N Shake is engineered to combine both gliding and shaking presentations. The innovative bullet-head design allows for an optimal gliding action during the descent towards the bottom, and a flat surface on the front edge of the head makes it ideal for stand-up and shaking presentations once on the bottom. Hook size and weight are embossed on the head for easy selection. The hook features the SS coating and a needle point to ensure excellent penetration performance and a forged shank for improved resistance. The offset design eases Texas rigging soft plastics for a completely weedless presentation. Besides, the orientation of the hook eye reduces the chances of snagging as opposed to an inline eye which is more likely to lean on one side rather than cross over the snag.

### HARPAX INSHORE

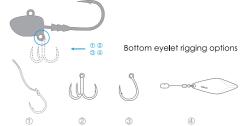

The BKK Harpax Inshore is a short shank 2x-wire HD jighead equipped with corrosion-resistant Bright-Tin coating developed to be used primarily in saltwater environments. The straight point delivers immediate hook-ups, while the bait keeper is designed to fit most kinds of soft plastic baits including scented, floating or sinking baits whose plastic blend may vary significantly.

It features an eyelet on the bottom of the head to upgrade it with a teaser blade, an additional treble hook or a assist hook.

#### HARPAX OFFSHORE

The BKK Harpax Offshore is a super heavy-duty jighead designed with a 4x wire and a straight point to be able to penetrate fast and withstand extended fights with blue water giants. The design of the bait keeper can accommodate many types of different soft plastic lures. It features a Bright Tin coating to prevent saltwater corrosion and two additional eyelets on the head.

#### STAINLESS BB SWIVEL

STAINLESS

BKK stainless BB swivel are made in high quality stainless steel to resist rust and corrosion. Precise punching allows to shrink the wire section without affecting the strength and elasticity required to fight big prey. Line damage is avoided by a thorough polishing of all surfaces and torsions are prevented by the smooth spinning mechanism of the swivel.

#### **DUOLOCK SNAP SWIVEL-51**

The BKK Duolock Snap Swivel 51 features our original Duolock Snap and a smooth-rotation stainless steel swivel to avoid torsional forces applied on the line. Thanks to the robustness of the stainless steel, even smaller swivels are equipped with remarkable strength, being able therefore to endure the pull of fairly big fish.

# TWEEZERS 🛷

The BKK MICRO SPLITRING TWEEZERS are designed to open small split rings without damaging them. Durable stainless steel body endures extended use. Lightweight construction and ergonomic design for easy operation. Compatible with  $\#00\$ %3 split rings.

#### **IWS LEAD**

Featured in the Titan Diver+, these leads are used to change the swimming action and the swimming depth of your weedless rig according to the fishing conditions. Replacing these leads on the shank of the Titan Diver+ is extremely easy and intuitive, allowing for many swimming options with the same weedless hooks.

They come equipped with the silicon pins needed to secure them onto the hook.

#### **TEASER BLADE WS1**

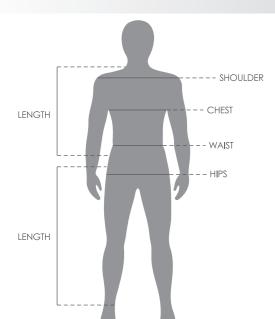

The BKK Teaser Blade W\$1 is designed to boost your weedless presentation using the Titan Diver and the Titan Diver+. We chose a slimmer profile compared to most of the blades on the market to minimize the chance of snags, at the same time maintaining a smooth spinning action. Enticing flashes are boosted by the hammered finish of the blade's surface. The connection system lastly is super easy, allowing for a quick and easy replacement.

### SIZING GUIDE

All apparel is all listed in European sizes.

USA sizes are +1 size larger than listed.

**Example:** Size Large listed in catalog is USA size Medium. USA customers should buy +1 size UP for proper fit.

### HOODED LONG SLEEVE PERFORMANCE SHIRT

The new and upgraded BKK Long Sleeve Performance Shirt now comes in a hooded version for added coverage to protect your head and neck from intense sunlight. The fabric provides ultimate UV protection (UPF 50+) and quick drying for all-day comfort. The thumbholes keep the sleeves in place, and the mesh panels on both sides of the body provide excellent side and pit venting to keep you cool. The new camo pattern offers a stylish on-the-water fashion for the most avid anglers.

#### O<sup>3</sup> SHIELD

The BKK O<sup>3</sup> Shield fishing gaiter is specially developed to provide full protection of both face and neck when fishing under extremely hot sun. The OZONE SHIELD fabric technology undergoes a special UV blocking treatment that enhances the body's ability to maintain perspiration and provides ultimate UV protections by up to UPF (Ultraviolet Protection Factor) 50+ against excessive UV radiations that can harm your skin. This, combined with vent holes over the mouth and nostrils, prevents the heat of your breath from clamming up the inside of the mask, fogging your lenses. Besides, high stretchability along with an innovative design allow for complete freedom of motion and comfort.
